Next Pace Groups for Technical Assistance (TA)

TA support for the next group of states is scheduled to begin in mid-April and end in mid-May.

Background

Direct support was provided to “sprint” states that resulted in applications submitted and funds obligated.

Collaborative Approach to Group TA

- ✓ Coordinate and foster state collaboration to develop effective program designs
- ✓ Leverage learnings and documented information from precedent pace groups
- ✓ Access to the DOE Home Energy Rebate Teams, experts and peer sharing

Right now, TA focuses on program application development and initial program design. Resource development is prioritized to address the assessed states' needs.

TA Approach to Group 3

TA Offerings for Group 3 will include focused support in a multi-state group format to encourage peer exchange and leverage best practices from precedent sprint groups.

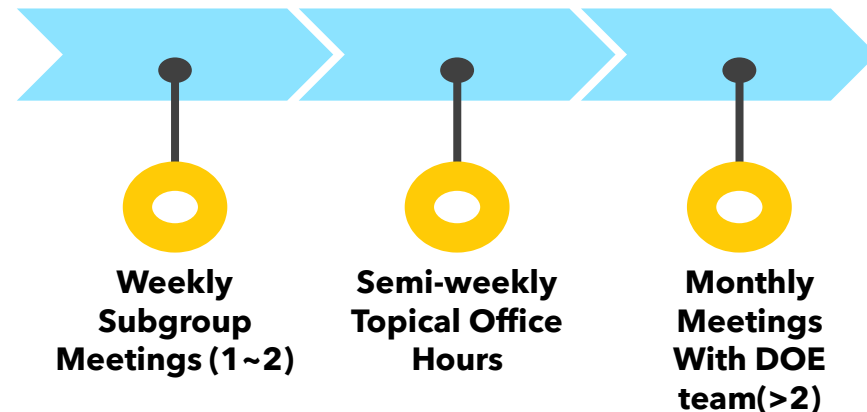

Group 3 Format

Groups, defined by key milestones →

Small Group TA defined by target delivery dates for key milestones

Subgroups, based on commonalities →

Subgroups based on commonalities (e.g., region, types of challenges and barriers, program types (multifamily or single-family) or approach.)

Types of Support Offered

- **Targeted resources and responses** to inform application development and program design
- State **Implementation Blueprint Plan** development support
- **Strategy development and subject matter expertise** to support robust program applications

Commitments to Participate in Group 3 TA

States that commit to application submission, plan submission, and program launch timeline targets can opt-in to participate in Group 3 and receive support.

Group 3 Example Milestones

TASKS	April	May	June	July	August	Sept.
TA Group Support						
Program App Submissions						
App Reviews / Updates						
Full Program Award Modification						
Blueprint Plan Submission				Optional to submit plans with narrative or to defer		
Plan Reviews / Updates						
Program Launch						

To participate, states must commit to an application submission timeline **within 30 days of end** of the focused support period.

States must commit to a **program launch date within 120 days** of submitted application

New groups (3, 4, and 5) will start every 2 months starting with Group 3 in mid-April.

Thank You!
